

## Job Description

**Position: Automation Technician**

**Location: Midland, TX**

As an energy service company, Noralta Technologies provides a combination of patented technology and service that supports energy producers throughout the United States, Western Canada, and South America currently demonstrating a strong interest in expanding globally. Noralta strives to create an atmosphere and culture that embraces work/life balance, an understanding of what our employees require to be successful and where hard work and commitment is rewarded with advancement opportunities.

## What our work looks like

- Provide automation and programming expertise for oil and gas technology throughout the Permian Basin, delivering support of new products, technologies, and automation projects
- Program and provide support of industry standards, devices and systems (Allen Bradley PLCs, SCADAPack, ABB Totalflow, Schneider PLC, ROC, Kimray, etc.)
- Assist with digital data communications (SignalFire radio, Pepwave and Microhard cellular modems, etc.) and networking projects
- Work with Noralta's nTerface platform and system programmers, supporting new products, technologies, and projects
- Train clients on the use of nTerface and train technicians on the installation and maintenance of nTerface-connected devices.
- Travel throughout the Permian Basin for new projects and in response to business needs
- Provide exceptional customer support to our clients

## Qualifications

- Technical school diploma in the areas of Automation, Controls, and/or Instrumentation
- Diverse work experience with automation systems on Oil and Gas field sites is a must
- Performing hands-on installation of control systems and product testing and that experience would be a must have
- Demonstrated expertise in management of end-to-end automation projects
- Strong customer service, multitasking, and problem-solving skills
- Capable of working efficiently under pressure in a sometimes physically demanding environment, demonstrating experience working outdoors in all climatic conditions and sometimes in remote locations

### Personal qualities

- Act as the Noralta brand ambassador, representing the company and its full service offering to our clients
- Exceptional communication skills with the ability to identify sales opportunities within the client setting
- Proud of the work that you do, going the extra mile to finish what you start and openly sharing your ideas
- Demonstrate clear respect and support for the complimentary trades.
- Ability to see around the corner – taking a safe approach in everything that you do.
- Personally involved in the community in which you reside

### Noralta provides:

- Fully-tooled corporate service vehicle will be provided
- PPE and safety training

### Please Note:

For your safety and the safety of everyone around you, the following will be required

- Pre-employment Drug and Alcohol testing in compliance with the Drug-Free Workplace Act
- Drivers abstract and a valid Driver's Licence
- Two professional references

*Noralta would like to thank all candidates for their applications but only those chosen for an interview will be contacted.*
