

**Position: Burner/Gas Fitter Technician**

**Location: Lloydminster, AB**

**Job description**

**About us**

As an energy service company, Noralta Technologies provides a combination of patented technology and service that supports oil and gas producers in Western Canada. We aim to fully understand the goals and obstacles our clients face, and continually innovate ways to help them improve their performance. In this way, we envision becoming outstanding partners to our clients, constantly evolving new technologies and services, and sharing in their successes.

**Why work here**

Surrounded by co-workers who are engaged in the community, our employees take pride in the work that they do and the company that they work for. The Burner/Gas Fitter Technician will join established team field service technicians who are respected for dedication and loyalty.

With a 28-year successful history, the company has grown up in Alberta. Noralta strives to create an atmosphere and culture that embraces work/life balance, an understanding of what our employees require to be successful and where hard work and commitment is rewarded with advancement opportunities.

**What our work looks like**

This position is for the Lloydminster region. The Burner / Gas Fitter Technicians will work closely with our technical team of Instrumentation Technicians and Electricians. Your exposure to oil and gas field facilities in a previous role will make you a strong candidate for this role.

**Duties include:**

- Install burner systems on oilfield tanks, treaters, dehy units, and line heaters.
- Perform burner preventative maintenance, trouble shooting, and service work.
- Grain dryer heater service work
- Complete required regulatory paperwork and ensure it is up to date.
- Work with the Regulators and Authorities having jurisdiction over the trade.
- Follow all codes and trade regulations.
- Attend and contribute to safety meetings.

## Qualifications

- Experience within the Oil and Gas industry as a Burner Technician or with an Oil and Gas service company to understand our business would also be an asset.
- Knowledge of B149.3 gas codes
- Experienced with current BMS burner systems.
- Energetic, detail-oriented, strong communication skills, and safety minded.
- Ability to work in sometimes challenging weather conditions.
- Candidates residing in the Edmonton/Lloydminster area are preferred.

## Personal qualities

- Proud of the work that you do
- Go the extra mile to finish what you start.
- Openly share your ideas
- Clear respect and support for the complimentary trades.
- Ability to see around the corner – taking a safe approach in everything that you do.

## Additional details

- Comprehensive company benefit plan
- Company truck (personal use allowance)
- Tool Allowance

## Please Note:

For your safety and the safety of everyone around you, the following will be required:

- Valid Class 5 drivers' license and a clean Drivers Abstract.
- Pre-employment Drug and Alcohol testing
- Red seal qualification documentation
- Two professional references

Full benefits are offered following a 3-month probationary period. We thank all applicants for their interest in Noralta Technologies Inc, but only those chosen for an interview will be contacted.

## Job Type: Full-time

*Noralta would like to thank all candidates for their applications but only those chosen for an interview will be contacted.*
